In partnership with:

Coalition for Conservation

AUSTRALIA

Coalition for Conservation invite you to the ground-breaking event, "**Mobilizing Global Support for Food Security and Climate-Responsive Agriculture**," where we will delve into the crucial intersection of agriculture, climate adaptation, ag-tech, and legislative policy modelling. In a world grappling with the effects of climate change, securing food independence while aligning with environmental needs has become a top global priority.

You will hear from the experts on:

- **Climate Adaptation for Better Agriculture and Livestock:** Discover the latest advancements in climate-responsive agriculture and livestock management.
- **The Role of Legislators in Policy Modelling that Supports Sustainable Farming:** Understand the pivotal role that legislators play in shaping policies that support sustainable agriculture and food security, nurturing entrepreneurs, and researchers to address the pressing challenges in the global food sector.
- **How Farmers Can Gain Access to Technologies and Advanced Practices:** Explore cutting-edge technologies and advanced agricultural practices that are transforming the global food production landscape.
- **Australia's Contribution to the Global Landscape:** Gain insights into Australia's unique contributions to food security and climate-responsive agriculture. Learn about the practices, technologies, and expertise that Australia is sharing with the world to address these pressing global challenges.

Who Should Attend:

Agricultural Experts, Researchers, Policymakers and Legislators, Climate Change Advocates, Technology and Innovation Enthusiasts, Environmentalists, Food Security Advocates, Students and Educators.

This event is supported by the **Bill & Melinda Gates Foundation**.
